Role: Front End Developer

Location: Rijeka, Croatia

We are looking for a talented Front-End Web Developer who is motivated to combine the art of design with the art of programming. Responsibilities will include translation of the UI/UX design wireframes to actual code that will produce visual elements of the application. You will work with the UI/UX designer and bridge the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.

Years of experience: 2-4 years

Responsibilities:
- Develop new user-facing features
- Ensure the technical feasibility of UI/UX designs
- Optimize application for maximum speed and scalability
- Assure that all user input is validated before submitting to back-end
- Collaborate with product management and engineering to define and implement innovative solutions for the product direction, visuals and experience
- Execute all visual design stages from concept to final hand-off to engineering
- Conceptualize original ideas that bring simplicity and user friendliness to complex design roadblocks
- Present and defend designs and key milestone deliverables to peers and executive level stakeholders
- Continuously discover, evaluate, and implement new technologies to maximize development efficiency.
- Passion for best design practices and a desire to develop new bold ideas

Skills and Qualifications:
- Proven UI experience
- Developing leading-edge web UI, for both desktop and mobile, using the latest technologies and patterns, incl. HTML5, CSS, Bootstrap, SCSS, Javascript, Jquery etc
- Write high-performance, reusable code and work closely with design and technical teams to translate the design vision to web/mobile.
- Demonstrable Frontend development skills with a strong portfolio
- Proficiency in HTML, CSS, and JavaScript for rapid prototyping.
- Ability to solve problems creatively and effectively
- Up-to-date with the latest UI trends, techniques, and technologies
- Good insight into current web & app design trends and related creative spaces.
- Strong communication skills.
- Certification /Degree Usability /Interaction design will be preferred.

What we Offer:
- Start-up environment and chance to work on unique products

- Work on your own products - with possibility to raise seed investment
- Lean Startup way of working which will make you successful in future
- Chance to earn equity based on performance
- Freedom to learn new technologies and work across different domains
- Onsite opportunity - depending on customer requirements
- Free Coffee and Fun environment

How do you apply:

If you think you might be the right fit for our team, please apply https://lnkd.in/f7CyD9N

Tell us why you're perfect for this job by sending a cover letter and CV to careers@theleanapps.com .
