

Role: React JS Developer - Remote work

Job brief

We are looking for a ReactJS Developer to help us to improve our customer experience.

Duration of this project will be for 8 weeks.

Responsibilities

- Developing new user-facing features using React.js
- Building reusable components and front-end libraries for future use
- Translating UI/UX design wireframes into high-quality code that will produce visual elements of the application.
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers
- Create a unit, scenario, integration sanity test, etc if required
- Write Documentation for your code

Requirements

- Strong proficiency in HTML, CSS, JavaScript, including DOM manipulation and the JavaScript object model
- Thorough understanding of React.JS / Angular JS / Vue.JS
- Experience with popular React.js workflows (such as Flux or Redux)
- Experience with Bootstrap.css / Semantic / Foundation
- Good knowledge of General Programming Skills (DS & Algo concepts)
- Familiarity with newer specifications of EcmaScript
- Experience with data structure libraries (e.g., Immutable.js)
- Knowledge of isomorphic React is a plus
- Familiarity with RESTful APIs
- Knowledge of modern authorization mechanisms, such as JSON Web Token
- Familiarity with modern front-end build pipelines and tools
- Experience with common front-end development tools such as Babel, Webpack, Gulp, Grunt, NPM, etc.
- Ability to understand business requirements and translate them into technical requirements
- A knack for benchmarking and optimization
- Familiarity with code versioning tools GIT

How do you apply:

If you think you might be the right fit for our team, please apply by using below process.

Tell us why you're perfect for this job by sending a cover letter and CV to careers@theleanapps.com / rajendra.c@theleanapps.com. We also prefer 1-2 min video introduction. Also mention why do you think that you will be a good fit to [our company values](#)?
