

React JS Developer (Remote Work)

Job brief

We are looking for a ReactJS Developer to help us to improve our customer experience. Duration of this project will be for 8 weeks.

Responsibilities

- Developing new user-facing features using React.js
- Building reusable components and front-end libraries for future use
- Translating UI/UX design wireframes into high-quality code that will produce visual elements of the application
- Optimizing components for maximum performance across a vast array of web-capable devices and browsers
- Create a unit, scenario, integration sanity test, etc if required
- Write Documentation for your code

Requirements

- Strong proficiency in HTML, CSS, JavaScript, including DOM manipulation and the JavaScript object model
- Thorough understanding of React.JS / Angular JS / Vue.JS
- Experience with popular React.js workflows (such as Flux or Redux)
- Experience with Bootstrap.css / Semantic / Foundation
- Good knowledge of General Programming Skills (DS & Algo concepts)
- Familiarity with newer specifications of EcmaScript
- Experience with data structure libraries (e.g., Immutable.js)
- Knowledge of isomorphic React is a plus
- Familiarity with RESTful APIs

- Knowledge of modern authorization mechanisms, such as JSON Web Token
- Familiarity with modern front-end build pipelines and tools
- Experience with common front-end development tools such as Babel, Webpack, Gulp, Grunt, NPM, etc.
- Ability to understand business requirements and translate them into technical requirements
- A knack for benchmarking and optimization
- Familiarity with code versioning tools GIT

How do you apply

If you think you might be the right fit for our team, please apply by using the below process.

Tell us why you're perfect for this job by sending a cover letter and CV to careers@theleanapps.com / ishwar.gavande@theleanapps.com. We also prefer 1-2 min video introduction. Also mention why do you think that you will be a good fit to [our company values?](#)
